Marcus J. Ertl

Hello Scott! I'm sorry for bothering you with a silly question. We do a small kite workshop in germany for 30 participants. This year we want to teach them about patchwork and kites - with Peter Schmidt as teacher! I do a small manual for the workshop, showing the kite and telling a small bit about patchwork. I would love to show in this manual an image of one of your great patchwork kites. May I use an image you posted on facebook in my manual? I will attach an image, how this may look in the finished manual. Or even better, may I ask you for such an image in higher resolution for printing?

Let me see about a better image,  
but i'm afraid they'll be similar.

Thank you very much! I love  
your kites, and I'm shure, the  
will be a great inspiration for our  
participiants!
